Let's talk about RSPO Sustainable Product solutions!

Comercial Quimica Massó S.A. is a Member of Roundtable on Sustainable Palm Oil (RSPO)

Dear Valued customer,

One of the most important RSPO criteria states no primary forests or areas which contain significant concentrations of biodiversity (e.g. endangered species) or fragile ecosystems, or areas which are fundamental to meeting basic or traditional cultural needs of local communities (high conservation value areas), can be cleared.

Other RSPO principles stipulate a significantly reduced use of pesticides and fires; fair treatment of workers according to local and international labour rights standards, and the need to inform and consult with local communities before the development of new plantations on their land.

Only by being RSPO-certified by an independent auditor approved by the RSPO can producers claim that they produce, use and/or sell sustainable palm oil.

Distributor in detergent, food, feed, cosmetic and pharmaceutical sector since our origin, Comercial Quimica Massó S.A is one of the distributor leader in the sector of surfactants and excipients for these industries. As distributor of some active RSPO members, for palm derivate, glycerine, fatty acids, esters and derivate, we should follow the channel to final consumer.

We are pleased to inform you that the Board of Governors of the RSPO has approved our organization, Comercial Quimica Massó S.A. as a member of the Roundtable on Sustainable Palm Oil (RSPO) effective 7th August 2014.

Comercial Quimica Massó S.A. as Supply chain Associate member is aware of its responsibility in this business: we have committed to more transparency in the supply chain of palm oil and palm kernel oil and our ambition is to increase the proportion sustainable palm oil in our products.

Our membership number is: 9-0697-14-000-00 which is the prerequisite for being RSPO SCCS certified (Supply Chain Certification Systems) to guarantee that the criteria for processing RSPO certified sustainable palm oil and derivatives through one or more of the supply chain models as stated in the RSPO SCCS have been met.

Feel free to come in touch with your local sales contact. Comercial Quimica Massó S.A is able to suggest products based on sustainable palm oil or derivative or non-palm products to you.

Kind regards,

Comercial Quimica Massó S.A
