#BeNatural #SolidCosmetics #LessIsMore #OnlyDEO

### Description

A natural solution to fight sweat.

A sustainable yet effective deodorant, extremely mild with the delicate underarm skin. Less than 10 ingredients for a superior performance, because *less is more*; the ideal combination of deodorizing agents, absorbing powder, emollient and perfume. It leaves a smooth and comfortable after-feel, and a pleasant aroma with coconut, fresh fruits and vanilla notes.

### Ingredients

**Debiome Noni PRCF** prebiotic deodorant treatment; reduces the generation of body odour while allowing the skin breathe and respecting the skin microbiota.

**Massocare TEC** microflora friendly deodorising agent; inhibits the malodours formation.

**Amaze Nordic Barley** 100% natural visual and sensorial formulation enhancer; for a wet, smooth and hydrated skin.

**Massocare CCC MB** vegetable emolliency for a silicone-like touch... without silicones.

### How to use

Put a little powder on the fingertips or on a cosmetic puff and gently apply on the armpits. It can also be sprinkled on the feet.
