Squeeze, activate & lather!

Ingredients

Light and dry emollient, satin effect

This low-water concentrated formula leaves the hair feeling light and dry producing a satin effect, looking soft and blooming.

Innovative multifunctional ingredient

Works as a co-emulsifier, moisturizing and wetting agent. Creates a long lasting and velvety film that provides excellent heat-, UV-, seawater and color protection. Moreover, increases hair volume, brightness and elasticity.

Natural antioxidant blend for increasing cosmetic oils stability

Made with a natural antioxidant blend in order to increase the cosmetic oils stability creating a synergistic effect, enhancing hair health.

Try this innovative waterless shampoo out!

How to use

Apply thoroughly wet hair in the shower, clean with gentle movements and rinse it afterwards with water.
