

HANDS, ELBOWS & FEET TREATMENT

#BeNatural #SkinGlow #YourTreatment #SatinSkin

Ref. E20-0268-07

Description

Formulation request

Sun's out, feet, elbows & hands out!

We usually forget to keep our hands hydrated, however, not as much as our feet and elbows. But, who doesn't want to show them off, especially during summer time?

As natural as it gets, this cream is designated to regenerate and hydrate the skin of these body parts that we tempt to forget.

Your feet, hands and elbows are as important as your face, keep them hydrated!

Ingredients

Sustainable moisturizer outcome, a sustainable moisturizer outcome, versatile self-emulsifying base, completely vegetable. An excellent moisturizing effect is provided.

Vegetable based alternative to silicone. Provides an elegant dry after feel. Leaves a unique soft sensation and powdery finish, very light and non greasy sensation.

Vegan multifunctional texturizing agent. A multifunctional balm base, playing with textures for a soft and smooth after feel to the skin. Looking out for the world!

Innovative natural blend. Green jellifying rheological agent that provides a silicon-like effect

Highly purified upcycled organic osmolyte. 100% natural, it moisturizes the skin through osmoprotection and by strengthening the skin barrier.

The perfect exfoliant and natural fresh deodorant. Neutralizes odors and deeply exfoliate skin. It can also renew skin cells which improves the appearance of the skin.

Innovative technology. A multi-tasking ingredient that can overcome skin conditions. It is a must for anyone prone to acne, due to its exfoliating nature. Also has the ability to soothe stressed skin and reduce redness.

How to use

Apply to skin with a gentle massage. For daily use.
