

## MEDIUM-COLOURED FLUID SUN LOTION SPF 50+ (shake before use)

#Sunscreen #HighProtection #MineralFilters #HighSPF

Ref. E11-276-03

[See the formulation](#)

### Description

This powerful fluid medium-coloured sun blocker offers daily protection from UVA and UVB with mineral filters, as natural as it gets. The ideal sunscreen so that there are no excuses when it comes to protecting the skin 24/7, regardless of whether you are in the office or tanning on the beach.

**Your skin cells have memory and a pretty good one, take care of them!**

### Ingredients

#### Mineral filter based in Zinc Oxide

Treated nano for greatest balance between UV protection and transparency. It offers a lot of benefits; broad-spectrum UVB and UVA protection in one, no skin penetration, no skin irritation and most important, naturality.

#### Natural booster for mineral filters

Extracted from fast growing Pongamia species using eco-friendly, green principles. A natural WA-UVB booster for mineral-based sunscreens produced with high purity.

#### Silky touch silicone derived

Alkyl silicone that provides suppleness, combining a smooth, silky light feel to the skin. This alkyl silicone imparts shine and keeps skin moisturized with no occlusive effect. Magnify sensory, improve compatibility.

#### Silicones

Light dimethicone as an alternative to volatile silicones. Imparts soft and silky feel to the skin. Non-greasy feel.

Silicone based crosspolymer for a velvety smoothness, light and silky after-feel.

#### Natural silky touch emollient

Natural silicone-like emollient and sunscreen solubilizer. Light ester for spreadability and after-feel.

### How to use

Apply generously and evenly before sun exposure, especially.
