[Request formulation](#)

#Under-EyeBeauty #ReducePuffiness #Glow #Hydrate

Ref. E24-045-13

Description

These under-eye patches are the best solution for puffiness and wrinkles. Designated to hydrate the skin and target signs of aging.

It is also contains HA to improves skin firmness to get you ready for the Holidays!

Merry Xmas to you all!

Ingredients

“De”-stressing agent

Reduces muscle involuntary micro-tensions and restores skin wellness by returning a younger-looking, “unstressed” appearance.

Aging well

Fast wrinkle reduction and skin texture improvement. It is also an antipollution protector.

Active able to stimulate gene expression of youth genes involved in many ageing mechanisms, with relevance on major signs of facial ageing.

Silky after-feel

A natural water supplier for your skin. It is a flash moisturizer and provides a fresh effect.

Thickening agent

Derived from the fermentation of glucosa. Reduces the stringy behaviour and pseudoplasticity resulting in a novel and extremely soft sensory feeling. Viscosifying and suspending natural gum for clear systems.

How to use

Clean and dry the eye area and add the patches. Leave them on for a few minute, once the treatment is complete, remove them starting from the outer corner.
